Summary

Highly motivated and detail-oriented recent Cum Laude graduate of West Visayas State University with a Bachelor of Science in Information Systems, specializing in Business Application Development. Proven expertise in crafting innovative web-based applications using React.js, Vue.js, Python, and FastAPI, with a strong foundation in designing and developing functional systems, such as custom POS solutions and malnutrition monitoring platforms. Eager to leverage my skills and passion for technology in an entry-level developer role, driving growth, learning, and contributions to impactful projects.

Experience

Multipliers Corp. January 2025 - May 2025
OJT Internship Red Spaces Dunggon B, Iloilo City, Philippines
